

Meet your teacher!

Puffins! I am super excited to be joining you in Year Four next year. It's been amazing to watch how you've grown and progressed from Year Two and I know you are all going to love being in Year Four.

In Year 4...

In Year Four, we have some great history and geography topics that will really excite you, such as looking at the rainforest and learning about the Romans. We will also be doing lots of fun science, like learning about electricity. Summer term will also see us starting swimming – how fun!

About me

You already know me very well by now, but this year you'll all be hearing lots about Hallie too. I will no doubt have lots of stories to tell about my very determined (and a little bit wild) little girl. She might even be walking by the time we're in Year 4!

I have loved being at home with Hallie but can't wait to get back to teaching. I taught Year 4 on my final placement when I was training to be a teacher and it was one of my favourite years, so I'm very excited.
