

# Meet your teacher!

Hello, my name is Jim and I am very pleased to be your Year 5 teacher in September. Year 5 is an amazing time filled with so many exciting projects and incredible learning. We are in for a phenomenal journey together.

In Year 5 we have some fantastic topics from life cycles to decimals, from pathetic fallacy to outdoor adventure activities!

I am really looking forward to getting started with Leopard class next September!

## In your new classroom..

You will find lots of brilliant books in our library corner, especially designed for relaxing in and is often used for pupils to quietly enjoy their latest favourite text.

I like to keep things very organised and have a reputation around school for being tidy (both with pupils and other teachers).

Make sure you keep all the pencils facing upwards so you don't blunt the tips!

## About me

I have been teaching for ten years now and I love helping children achieve their best. I really enjoy martial arts. So much so in fact I lived, and studied, in Japan for three years. I also love computer games (just don't tell the other teachers!).

One of my favourite things to do is ride my bicycle or my motorbike. On my weekend I'll be nose deep in a fantasy book of some kind or busy on two wheels somewhere.

I can't wait to learn all about each of you in Elephant class!
